TO WHOMSOEVER IT MAY CONCERN

Misuse of Cyber Cafes in terror activities committed in the recent past have unveiled the problems faced by agencies vis-à-vis getting reliable and timely statistics on Cyber Crimes or exploitation of Cyber Space by anti-national elements. To curb misuse of Cyber Space by anti-national persons, we suggest that there is a genuine need to keep **Digital Data** of the User and his / her Usage profile. The process should have ability to maintain an **e-register** for **Capturing & Storing** the **Photo ID** and **Photo** instead of maintaining physical Registers.

We at **Allahabad City Police** are constantly evaluating ways and means with you to find a viable and useful solution to this problem, which can be effective for us and cause minimum hassles for you.

Keeping in mind the **National Security** & our interaction with Cyber Cafe Security Software, we have found following points mentioned below will help Cyber Café Owner to support Law Enforcement Agencies to prevent any kind of Cyber Crime happening in your concerned area.

- Keep Picture of every User using your Cafe Machine at any given point.
- Keep Digital data for the Photo ID presented by every User before using the machine.
- Track every User who has used any Machine & at what time, even after couple of months with his / her authentic details.

We have found all above mentioned features are present in Software called **CLINCK Cyber Café Manager**, which is offered **Free of Cost** to all Cyber Cafes across the Country.

This is Mandatory to install Software & Manage Browser Data across Allahabad Rural/City-Kindly Co-Operate

We would advise you to visit the following Website:

<http://partners.ideacts.com>

Because we have found this solution very useful & this step will help us to make our City Cyber Crime Free.

Please ensure that you are maintaining a reliable database of every User as required in the **Interest of National Security**.
